Summary:

*Being born again is the most important thing we could ever do to assure us of our eternal lives in heaven; however, there will be no change or transformation in our **earthly** lives until we renew our minds and begin to think differently than the world thinks. Our minds control our destiny; what we choose to meditate on controls the direction of our lives. Therefore, it is essential to our success to focus on the Word of God.*

Notes:

1. Christians control the direction of their lives by taking command of their thoughts. Where we set our minds controls where we go in life; if we want to arrive at peace, our minds must be set on that destination. We must be custodians of our thought lives.
2. Our mindset determines our level of success; it brings us either prosperity or trouble. Success in the physical realm is contingent on the success we experience in our thought lives.
3. The devil is constantly looking to hijack our thoughts; we must give him no opportunity. The enemy can only devour someone who is not thinking right; we must not grant him access to the way we think.
4. Wrong-thinking prevents us from hearing from God; studying the Word counteracts this. We gained the mind of Christ when we got born and His Spirit moved inside us.
