Summary:

*Looking around at the chaos in the world right now, it is evident that we are living in the end times. Most people do not know how to process the strife, unrest, and uncertainty; they are therefore stressed and anxious. Jesus is the **only** thing we need; when we choose Him, everything else that is necessary for life will be taken care of.*

Notes:

1. In the midst of everything going on today, God is poised to move. What's about to happen will be greater than all the evil we see around us. At this particular time, we can't forget the things of God that we've learned.
2. God's Word is all everyone needs to live successfully. We must be careful what we see, hear, and say; this affects the direction in which our lives will move. We fight the negative emotions in the world with God's Word. This is how we win.
3. Our hearts are like soil, and God's Word is the seed; we are the farmers who sow the seed. Planting the Word in our hearts produces a godly harvest. However, we must let it remain in our hearts and not allow it to be uprooted. Once we enter into peace and rest, we know that the seed of the Word has taken root.
4. Satan uses affliction and persecution to steal the Word from our hearts. He doesn't want us to have it because he knows its potential to produce a harvest. God knew the cares of the world would threaten our peace; He tells us to give those cares to Him.
5. Some people want to choose their own way in life, but this will not give them the results they want. God's way is the only way.
