### Summary:

*The key to successful living is knowing that although we exist in the natural world, there's also a supernatural world running parallel to the one we see. It has no limitations. We are spirit beings living in physical bodies, made to live on the supernatural level. We reach this level by paying more attention to the eternal things of heaven than to the temporary things of earth. Living supernaturally means we rise above the things that keep others down and we never have to settle for the inferior things that others accept.*

### Notes:

1. We are spirits, like God. We have the same authority that He has; we must walk in it. We must learn to think like God. Focusing on Him instead of the world gives us great power.
2. A believer who is far away from God's Word is far away from the supernatural; the supernatural can't be separated from the Word. God is found in His Word; Christians can't be like Him without Him. If we neglect reading and meditating on the Word, then we have no power.
3. In these end times, peace is a blessing. We must never spend our peace on other people's drama.
4. What we pay attention to determines whether or not we will see supernatural results. What we focus on is the thing we will be sensitive to; what we neglect is the thing our hearts will be hardened to.
